

Fortuna Kiosk

The Fortuna Kiosk touch screen enclosure is manufactured to the highest quality. The Fortuna Kiosk is manufactured from powder coated mild steel with an attractive and modern toughened glass front using the latest technology and manufacturing techniques. The Fortuna Kiosk can be customised with a range of peripherals to ensure a best-fit solution for your organisation.

The Fortuna has a sleek and timeless design. It can be built either as a retail point of sales or alternatively as a station to dispense vouchers, printouts, take money or scan coupons.

Designed and manufactured in-house from the UK.
